Editor's Notes

I will I could say that I enjoyed Animé Los Angeles for the short time I attended. It was one thing or another that happened. ALA was in no way at fault, just bad timing and circumstance. We had originally planned to be at the con for the entire four days, but I had a wedding to attend Saturday. That Thursday of the con, I was only there for four hours before I had to go to the wedding rehearsal. Friday, we spent another four hours at the con, checking out of our hotel and ending the con. When I arrived home, I discovered the SD card I used in my camera became corrupt. I sent it to a data recovery center and was able to recover a couple dozen photos. Lucky, right? So that entire weekend, I basically spent about eight hours at that. At least the wedding went well.

There's still no word from that project we worked at the end of last year. But, the company needed us to work on a minor project for the higher-ups prior to getting approval. It was nice, but the files were difficult to work with. It's now a waiting game for the final word on the project.

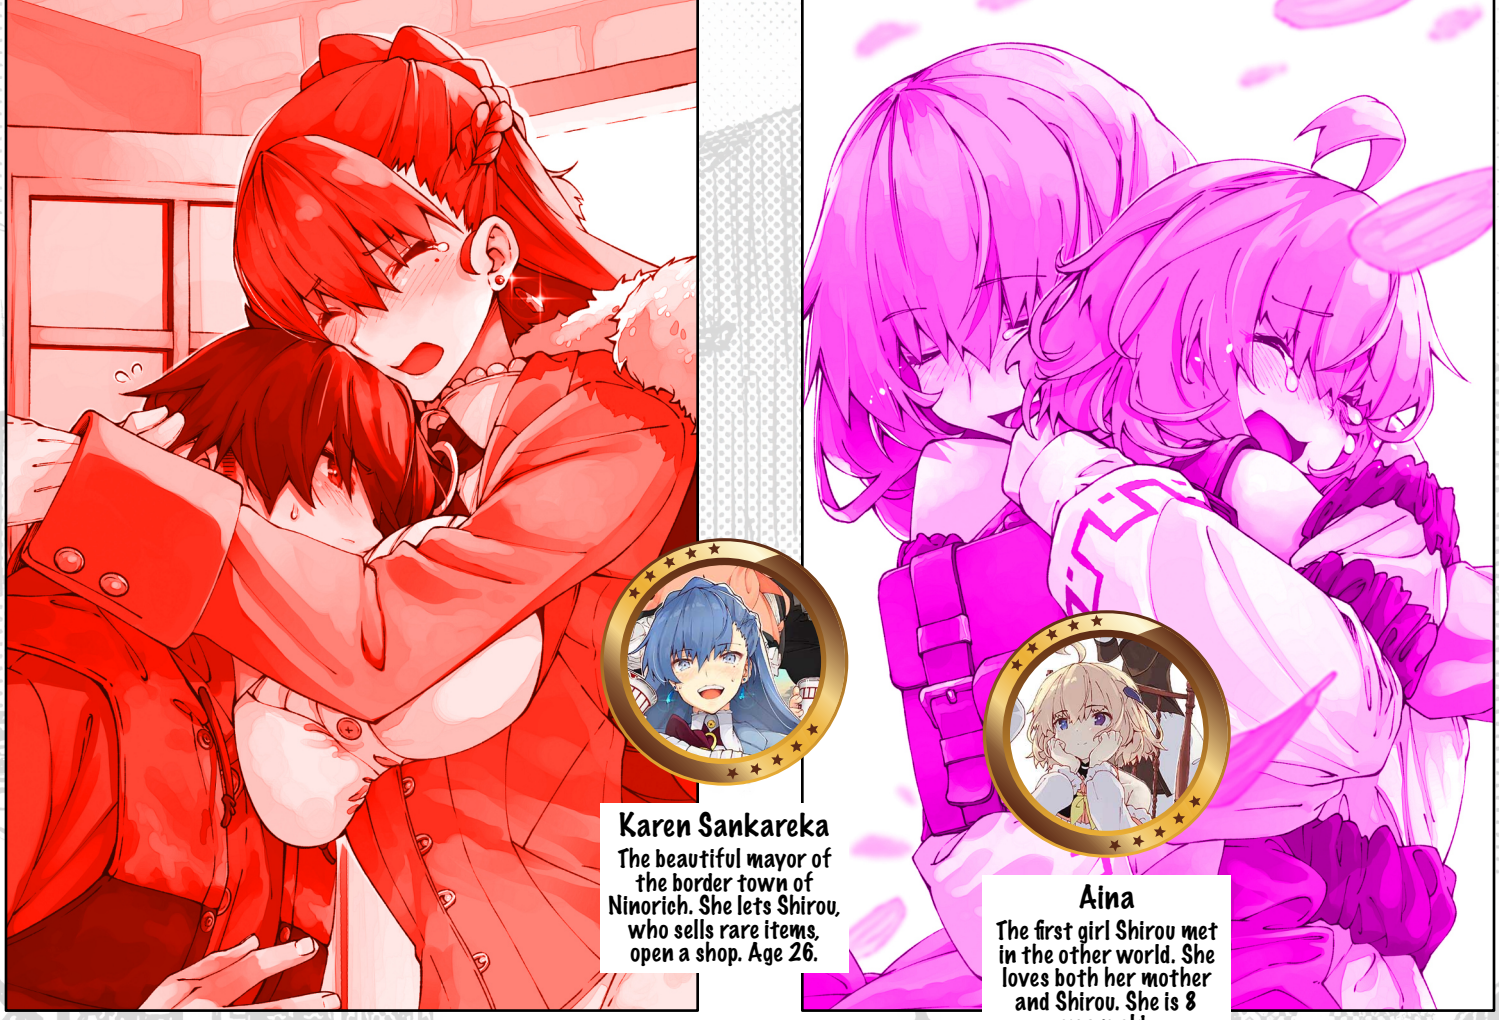
Once in a while, I come across a light novel that I absolutely adore and look forward to reading. This only happened twice before and what's gotten me interested again in fantasy novels, like the ones I used to read back in the day…now with the isekai twist. But as I got older, my interest in the adventure became second the characters of the story. It just happens that *Isekai de Gyōshōnin wo Hajimemashita* is similar to the light novels I've read before, but the main twist to this story that the main protagonist had no other special power but equivalent exchange, infinite storage and the abilitiy to go back to his old world. So, here's what the story is about.

After enduring a soul-crushing job at a black company, our main protagonist Shirō Amata quits and moves into the house his late grandmother left him in her will. While settling in, he makes two shocking discoveries: his grandmother was actually a witch from a parallel fantasy world called Ruffaltio, and a simple closet door in her home serves as a portal to that world as said from a letter she left him. He discovers he can freely travel back and forth between modern Japan and this other world whenever he wants which made him think of the possibilities like "in the light novels" he's read.

A book left behind by his grandmother grants him the powerful skill "Equivalent Exchange," which lets him convert Japanese yen into the other world's currency (and vice versa) at a fair rate, along with another useful skill… infinite item storage. Realizing the massive potential for profit, Shirō decides to become a peddler in the small frontier town of Ninoritch. He starts by selling simple, everyday modern Japanese items…such as matches, lighters and other convenient "modern-day" merchandise…that amaze and delight the locals who have no equivalent technology or conveniences.

Along with friends like Aina, who helped him after he arrived and now his assistant, and Karen Sankarea, the mayor of Ninoritch, Shirō decides to set up shop, builds relationships with the townspeople (including encounters with adventurers, beastfolk, and other fantasy races), navigates guild regulations, and gradually establishes himself as a merchant. Shirō is the quintessential laid-back, kind-hearted everyman in this cozy isekai. He's good-natured and helpful—strongly believes in helping others (influenced by his grandmother's teachings), often going out of his way to assist people without expecting much in return. Shirō's also mild-mannered, modest, and easy-going; resourceful and business-savvy; brave when it counts; and dense (oblivious in romance). Overall, he's portrayed as a "nice guy" who attracts people through his decency and reliability, making him a relaxing main



Karen Sankareka
The beautiful mayor of the border town of Ninorich. She lets Shirou, who sells rare items, open a shop. Age 26.

Aina
The first girl Shirou met in the other world. She loves both her mother and Shirou. She is 8 years old.

character in this slice-of-life merchant story.

Aina is the young girl (8 years old) who becomes Shirō's assistant and a central side character early on whom he met when he arrived in Ninoritch. She's cute (from the illustrations by Takashi Iwasaki), earnest, and hard-working; innocent and cheerful; loyal and familial; and resilient when faced with tough times. She's the heart-warming "little sister" type who brings out Shirō's caring nature. Aina often calls Shirō "papa" when she's sleepy… how cute is that!

Karen Sankareka (26 years old) is the gorgeous mayor of Ninoritch, the frontier town where Shirō sets up shop. She's beautiful and elegant; anxious and worried at times about appearances and responsibilities, helpful and supportive like when she provides Shirō with a shop/house right away; shrewd and capable in administration and works to improve Ninoritch; and kind and welcoming quickly warming up to Shirō and helps integrate him into the community. Her relationship with Shirō often involves teasing (especially from Aina trying teasing them to get together) and mutual respect in their respective roles.

Later on in the story, Shirō meets numerous other characters such as the Blue Flash adventurer part which consists of the warrior leader Rayia, the mage Nesca, Rolf the battle priest and Kilpha the ranger. There's the annoying guild receptionist Emille, who's claims that Shirō will marry her and after his money. Ney Mirage, the new guild master who took over the Silver Moon adventurer's guild. Patty Falulu of the legendary fairies who became Shirō's boss. And of course there's Aina's mom, the beautiful Stella, who does everything for her daughter. There's other characters too, but these appear more often throughout the novels.

What I really like about *Itsudemo Jitaku ni Kaereru Ore wa, Isekai de Gyōshōnin o Hajimemashita* (*Peddler in Another World: I Can Go Back to My World Whenever I Want*) by Hiiro Shimotsuki is that it's a pretty fun read and story. I've also read the manga for comparison. Its not too serious like all the other isekai out there with over-powered heroes and such, but has the right about of conflict, drama and comedy that suits my tastes. Especially Aina's pure cuteness and Karen's mix of competence with occasional flustered charm all fit the relaxed merchant vibe keep the light and feel-good story. This made me want to buy the other novels in this series, so I bought a few more of the novels. If you decide to read onward, the story arcs do get a little more intense while maintaining its core feeling. Besides, I'm just curious who Shirō ends up with, if it happens at all. I'm rooting for you Karen. ❖ Ed Gomez

Tanjirō is a kindhearted person who loves his family and is willing to be the type of sibling everyone can rely on and look up to. This is changed when he returns from a day of work to find his family completely slaughtered, the only survivor being his little sister, Nezuko. This set fate in motion for what we've currently seen: The training, harrowing battles, and strenuous persistence against demonic resilience. The effort required to achieve his current level of strength was no easy feat, and I believe this was done extremely well within *Demon Slayer*.

Protagonists becoming able to fight against the strongest of opponents is nothing new in anime, but often times we're conflicted by how exactly this comes to be. Do we see genuine effort and resolve which makes their power level believable? Or do we feel that the MC simply benefits from unfair circumstances and shenanigans which allows them to rise to the occasion despite their inexperience and unworthiness?

I believe Tanjirō has earned his level of power, and is fairly scaled considering his training and effort. Let's talk about it.

Sun Breathing & Demon Slayer Marks

First let us address the elephants within the room, as the two biggest things people will state that make Tanjirō's power illegitimately gained are his Sun Breathing style and the "Demon Slayer Mark."

For those of you who do not know: Sun Breathing is the original breathing technique in which all other forms are derived from, and Demon Slayer Marks are what appears on the body of those who have met certain conditions and enhances their physical capabilities past those of a normal human.

The Sun Breathing style, "Hinokami Kagura," was taught to Tanjirō by his father. This was a ritual performed to ward off evil spirits and diseases at the start of every new year, the dance being performed from sunset to sunrise. It is passed down within the Kamado family, and just also happens to be the legendary Sun Breathing technique which birthed every other style.

Regardless of Sun Breathing being a family secret and essentially the strongest breathing technique (being the originator), it must also be learned. Tanjirō

still had to put in the effort to become proficient within this breathing style, meaning that it would be completely unrealized unless he'd already learned the Hinokami Kagura with his father and then honed it. Also, this isn't some magical style which has no drawbacks or limitations; the stronger Tanjirō is normally, the better he's able to utilize this ability. In fact, without him being sufficiently strong, this acts more-like a double-edged sword; boosting his power considerably while also depleting all of his stamina in the process.

As time goes on, and as of the time of Infinity Castle, Tanjirō is able to use this as easily as his Water Breathing techniques. However, this is only because he's had to train relentlessly and come to terms with how this power is used in order to not suffer as severe of a drawback as when he first began to utilize Hinokami Kagura within his core fighting style.

Origins & Training

Tanjirō's origin story begins with confronting Giyū to save the life of his sister. While it was very apparent that Giyū was completely out of Tanjirō's league, Kamado was still willing to attempt the battle to save his little sister. The rock he threw to distract Giyū while tossing up the Axe shows how strategy plays apart of whatever Tanjirō does. One of my favorite quotes from the *Air Gear* manga was, "The strong are always sharpening their fangs while the weak are always quickening their wits." His ability to strategically fight is also shown in several places; such as versus the Upper-Moon Ranked 6 in deceiving him to go for his neck, or using the Upper-Moon Ranked 4's ability to fly so that he could make it back to his sister. While he's continuously shown his mind since the beginning, what earned him most of his strength is the effort he's put in.

Giyū introduced Tanjirō to Sakonji Urokodaki, the man who trained him. However, Tanjirō was never supposed to actually go face the trial to become a Demon Slayer since he'd already had too many students who died due to a specific demon. Training for additional years, aided by the spirits of those who passed (Sabito and Makomo), Tanjirō was able to face and defeat this demon while passing the trial to become an official Demon Slayer. It makes sense that Tanjirō was able to do what none of the others did since he was given a higher goal to finish before even being able to take the test; those additional years spent building strength, technique, and constantly testing his mettle would put him up and above those without that same level of grinding. Also, those spirits gave him guidance, as hindsight is always 20/20.

Tanjirō was able to go and fight demons on his own, completing missions and gaining the battle experience needed to feel more confident within himself. Fighting through pain, his own worries, and even realizing that sometimes you must use unorthodox approaches and critical thinking to best an opponent who may have an edge on you.

During his battle with Lower-Moon Lower-Five, Rui, Tanjirō discovered and implemented the Sun Breathing Style. While incomplete and draining him fully, he got a powerful technique to hone and use in his upcoming battles.

After his battle against the Lower-Moon Ranked Five, Rui, Tanjirō had to undergo "Rehabilitation Training." This included getting his stamina and strength back up, which lead into him finding out and learning "Total Concentration Breathing Constant." With more mastery and control over breathing, he even learned how to use it in order to stop minor bleeding.

Also, when the *Swordsmith Village Arc* arrived, we got to see him take on the Yoriichi Type Zero. While Muichirō was able to handle this easily and broke off one of the arms, Tanjirō was able to re-

ceive the full benefits of this training. One of the arms being broken means he was able to fight a nerfed version, making it easier to handle but still very much a challenge. Being able to spar against this meant his techniques improved; as in, his ability to both attack, defend, and be aware of his surroundings and possible openings.

If you keep going past this, Tanjirō received training from the Hashira, being one of the only Demon Slayers who was able to gain the tutelage of multiple ones. Each time he endured a training, something new was learned and more skill and strength was built. It was during the *Ha-shira Training Arc* that honed Tanjirō into a more finely tuned Demon Slayer by being under direct supervision and instruction of the best the Corps has to offer.

Power & Comparison

Within *Demon Slayer: Kimetsu no Yaiba – The Movie: Infinity Castle*, Giyū has thoughts after seeing Tanjirō evade Upper-Moon Ranked 3's Akaza attack and counterstrike him. Saying that his skills were finely honed, and he's comparable to a Hashira. While Tanjirō's is blessed with The Demon Slayer Mark, Hinokami Kagura, and ability to enter "The Transparent World," it's not as though these alone would have gotten him to be comparable to a Hashira. No. We see many times throughout the series where Tanjirō doesn't stack up against these powerhouses, and it's only now that he's able to fight side-by-side with them.

The first fight where we see the massive difference in power is when he needed to fight the Lower-Ranked Five, Rui. Despite fighting against him desperately, despite manifesting the power of Hinokami Kagura, and despite Nezuki utilizing her Blood Demon Art…Tanjirō failed. However, immediately afterwards, we see Giyū take Rui down with absolutely no effort. This marked the biggest gap in power I'd seen within this series so far, and an immediate telling of how absolutely insane the Hashira were. For all of Tanjirō's effort and struggle, he still paled in comparison to the Demon Corps best.

When they made it to the Butterfly Mansion to be rehabilitated, it was very apparent how much stronger and faster Kanao was than Tanjirō. While she was not a Hashira, it was obvious she was much stronger than a normal member of the Demon Slayer Corps. This in itself showed a massive gap between him and more elite members, and Total Concentration Breathing was the technique which brought his strength inline with her's. Kanao went from someone unstoppable against Tanjirō to being someone he could actually best, this showed a boost in his strength and technique through the power of Total Concentration Breathing.

Tsuyuri, Kanao
cv: Tsuyuri, Kanao

The *Demon Slayer: Kimetsu no Yaibi – The Movie: Mugen Train* showed once again how much disparity there was between Tanjirō and The Hashira, even if he'd already learned Total Concentration Breathing. For reference, there was 8 train cars and Rengoku was able to handle five by himself. Tanjirō was having difficulty with just one. However, the fight against Lower-Ranked One, Enmu, showed that Tanjirō had indeed grown. While he was unable to take down Rui with his sister's help, he was able to defeat Enmu with Inosuke. While this is to be celebrated, they immediately showed that our MC was still far from the ideal.

When Upper-Moon Ranked 3 Akaza and Rengoku fought, Tanjirō stood on the sidelines unable to do anything. The battle was happening too fast for him to keep up, and he felt a true sense of helplessness. Being only able to watch a great man die without aiding had to have hurt, but there was nothing he could do. Giyū's word echo this sentiment, "The weak have no rights or choices! Their only fate is to be relentlessly crushed by the strong!."

Another massive power gap was shown during the "Entertainment District" arc. While Tanjirō had to once again enter into Hinokami Kagura, and was close to beheading Daki…he failed. Much like Gokū's kickback after using Mastered Ultra Instinct, Tanjirō's body betrayed him and he immediately felt the ramifications of not being able to handle that power. Comparatively, Tengen was able to behead Daki without any effort and called her "weak." The strength to effortlessly handle an enemy which our MC's best technique under duress could not shows the difference. Tanjirō was stronger than he'd ever been with Total Concentration Breathing mastered and the slaying of a

When you learn about his past, the way you see him changes.

Hayami: The Akaza we had perceived simply as "a powerful opponent" had a previously unknown past. Once you learn about the journey Akaza has taken up to this point, I think the way you see him changes completely. It changed greatly for me as well.

I was thrilled the moment Akaza appeared.

Hanae: First, the visuals of Akaza's entrance scene were incredible! The overwhelming impact was astonishing. For Tanjirō, he is a deeply fated enemy, but he was so cool that the moment he appeared, I couldn't help but feel happy. The more you learn about Akaza, the more you realize how captivating a character he is.

Shimono: I get it! When Akaza faces a formidable opponent, he gets into this "Let's become stronger together!" and "Let's really go at it!" kind of excitement, right?

Lower-Moon demon beneath his belt… but still not enough.

Regardless of this, Tanjirō was actually able to step in and help Uzui when the decisive blow to Upper-Rank 6 Gyūtarō was dealt. Sure, Gyūtarō was preoccupied with Uzui and wasn't on par with Upper-Rank 3's Akaza, but this was MASSIVE for Tanjirō. Before, he was only able to sit on the sidelines and watch as a Hashira fought an Upper-Rank demon that resulted within his death, now he was a factor in achieving the first slaying of an Upper-Rank demon in 100 years.

Another great comparison is within the *Swordsmith Village Arc*. Hantengu split himself into many forms, and even though it made him weaker, it gave him the ability to fight multiple targets while keeping himself safe. Tanjirō had trouble when dealing with just one of them after they were split apart, where as the Love Hashira (Mitsuri Kanroji) was able to battle the combined form for a significant period of time. Anyone else who was not a Hashira would have perished long before Tanjirō was able to behead the weak main body of Hantengu.

Next is a comparison of Tanjirō to regular Demon Slayers. The *Hashira Training Arc* gives us a good opportunity to see how our MC stacks against regular people; and we see that it's not even close. Being stronger, more endurance, and simply having better techniques showed that he was miles above regular Slayers of the Corps. As far as I see, he was one of the only people outside of the core group which was able to train under multiple Hashira. While this further along Tanjirō's skill for what's to come, it also showed that he truly was special compared to regular candidates because of the effort and battle experience.

The final comparison comes from *Demon Slayer: Kimetsu no Yaiba – The Movie: Infinity Castle*. Remember that Tanjirō was unable to keep up with the attacks that Akaza and Rengoku had before, let alone be skilled enough to intervene to help The Flame Hashira. More than that, Rengoku had to defend Tanjirō when Akaza was going to attempt to kill him immediately since "he was weak." Not only did Tanjirō dodge Akaza's initial attack, he was able to do so again immediately after while countering him. Being able to stand toe-to-toe with a serious Akaza put him on par with Rengoku, and the Demon Slayer Mark and "Transparent World" helped him to surpass him.

Closing Statements

Main characters in anime and manga are always going to be more talented or gifted in some way than others; it's why the series is about them and not someone else who cannot achieve the level of greatness required for genuine change. Tanjirō was born within the family that keeps the Hinokami Kagura alive, and he has the ability to manifest the "Demon Slayer Mark." However, that doesn't dismiss all of the hard work he has put in to achieve the level of prowess as a Demon Slayer. More so, there's never been a time I've felt that his status as a main character factored into the strength he needed within a given situation.

Tanjirō has never been able to use Hinokami Kagura to defeat an opponent who was clearly stronger than him, and he has never been able to make huge jumps in his strength without genuine training and strenuous effort. Those who should be more powerful than him show it within waves that are obvious, and he is brought inline with them on a timeline which feels believable and natural. While his strength played a major factor, let's not forget his change in mentality.

Being someone who was so non-violent and empathetic means that he's also had to change his mentality when it comes to fighting demons. In fact, when he was going to be trained initially, his lack of decisiveness and soft-hearted nature was one of the things which lead to Sakonj Urokodaki doubting he'd make it. Tanjirō never lost his empathetic and kind heart, but his resolve grew as he understood the monsters he was facing and what he needed to do. That even if he thought his opponents were amazing or possessed some level of redemption, that he couldn't forgive them for the evil they've done. I applaud him for taking a pragmatic approach; continue to have a kind heart but understand that somethings simply must be done.

Overall, I think *Demon Slayer: Kimetsu no Yaiba* did an excellent job. The mangaka Koyoharu Gotōge did an excellent job in his storytelling and what this series is most known for, but I think the power-scaling is really well done. ❖ Rok the Reaper

Cast:

Tama=Hatanaka, Tasuku
Vulcan=Kusunoki, Tomori

A friend wanted me to watch this anime for months now and wanting my opinion on it, but I couldn't get myself to watch it because it wasn't my cup of tea. So a few months ago, I remembered about *Beheneko: The Elf-Girl's Cat is Secretly an S-Ranked Monster!* (also known as *S-Rank Monster no "Behemoth" dakedo, Neko to Machigawarete Elf Musume no Pet toshite Kurashitemasu*) so I decided to watch it after all and dabble into the first couple volumes of the manga. After watching it in its entirety, I want to express my thoughts about this show and what others have to say about it.

Aria
CV: Yano, Hinaki
A novice female adventurer. She names the kitten she found in the labyrinth "Tama" and keeps him as her pet. She aspires to be like the "Sword Saint" Alisha, who single-handedly repelled the demons that once attacked her hometown. She specializes in high-speed combat, taking advantage of her skill, "Acceleration." She has a diligent and kind-hearted personality, but when it comes to Tama, she sometimes displays hints of a rather intense fetish…

Overview and Premise

The series is an ecchi fantasy anime

centered on a knight reincarnated as a Behemoth—an S-ranked monster that appears as a small, cat-like creature. After nearly dying in a dungeon, he is rescued and adopted by Aria, an elven adventurer who mistakes him for a kitten, but actually is an Elemental Cat and names him Tama. Tama, retaining his honorable knightly mindset, pledges to protect Aria while posing as her pet. The story follows their adventures in a dungeon-filled world, where they level up by defeating monsters, explore cities, and encounter various female characters. The narrative incorporates standard fantasy and isekai elements, such as power progression through absorbing monster abilities, guild activities, and group travels, though it largely stays within familiar tropes without deep innovation or extensive world-building.

Tama
CV: Hatanaka, Tasuku
A former human knight. He was slain by a demon's blade, but for some reason, he was reincarnated as a baby Behemoth, an S-rank monster. While on the verge of death from his grave injuries in the dungeon, he was saved by Aria, who mistook him for a kitten. He then pledges to become her knight. Even after reincarnation, his personality remains that of a proud knight. In battle, he utilizes a wealth of abilities to support Aria and the rest of his party.

Vulcan
CV: Kusunoki, Tomori
A tiger-eared blacksmith who runs Vulcan's Armory in Labyrinthos and is Aria's friend. She is also a C-rank adventurer, wielding a giant hammer with her innate brute strength. She has a laid-back personality, but her skills are the real deal, and she provides Aria with helpful advice. On the other hand, she can be rather shy when it comes to Tama…!?

Tone, Content and Themes

The anime is heavily focused on ecchi and fanservice, featuring frequent sexualized depictions of characters (primarily female, but including some muscular male side characters for balance), bath scenes, close physical interactions (often involving Tama being cuddled or pressed against characters), and overt perversion. Reviewers note that this aspect is unapologetic and self-aware, with the series leaning into it as a core element rather than treating it as secondary. This is in contrast to the manga—although it has ecchi moments, it is much more subdued than in the anime. The humor and scenarios often revolve around Tama's internal conflict as a former knight in a cat body amid the attention from attractive female companions, creating a harem-like dynamic. Some describe it as even-handed in its fanservice approach, while others view it as excessive or cringe-inducing, particularly in repetitive elements like frequent bathing or groping scenes.

Stella
CV: Ueda, Hitomi
A girl of unknown origin whom Tama and Aria encounter inside the labyrinth. For some reason, she refers to Tama as the "strong one" and urges him to have her child. She lacks any kind of common sense, and Aria and the others believe she has lost her memory. But her true identity is actually…?

Strengths Mentioned

The plot remains simple and consistent, avoiding major contradictions or overly frustrating character behaviors (e.g., no excessively dense or insufferable protagonist). It delivers on its intended power fantasy and ecchi appeal without derailing into unrelated directions—fights and stakes feel appropriately serious when needed. For viewers tolerant of or seeking lighthearted, trope-heavy ecchi fantasy, it can be enjoyable as "popcorn" entertainment or a guilty pleasure, with some finding it more tolerable than many similar series. The animation is described as serviceable or average for its genre, not exceptional but not notably poor.

Criticisms Mentioned

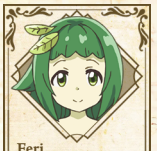
The story is generic, rushed, and underdeveloped, with limited character depth, background explanation, or fresh ideas beyond tropes. Its heavy reliance on ecchi can overshadow or feel gratuitous, leading to repetition and wasted potential on the interesting reincarnation/premise setup. The production aspects like music are often called forgettable, and some note uneven animation quality or lower priority compared to the studio's other projects.

Lily
CV: Ōbuchi, Nonoka
A girl who's a high pixie, a rare species of fairy that lives in forests and forest dungeons. She's very mischievous and puts her tiny body to good advantage when playing pranks on the others. Her attack skill, "Fairy Bullet," is an incredibly fast beam of light. She's good friends with Feri, and the two of them both love sweets.

One review strongly dislikes the cat protagonist's design, voice, and personality, finding him unappealing or irritating. It is not positioned as high-quality fantasy (comparisons to series like *Sōsō no Frieren* (*Frieren: Beyond Journey's End*) or *Dungeon Meshi* (*Delicious Dungeon*) highlight its shortcomings in depth), and the reincarnation element serves mainly as a plot device rather than a full isekai exploration.

Overall Reception

Opinions range from viewing it as a solid entry within the ecchi genre (e.g., high marks relative to similar shows) to average or below-average entertainment (e.g., mid-range scores like 6/10 overall, with caveats for specific tastes). It is frequently described as knowing its audience and limitations—fun for those who enjoy goofy, fanservice-driven fantasy without high expectations, but likely unappealing or off-putting for viewers seeking deeper storytelling, subtlety, or aversion to heavy sexualization. All in all, *Beheneko* is a straightforward, trope-laden ecchi power fantasy that prioritizes light fun and visual appeal over complexity. For those who are put off of the excessive fan-service, there's always the manga to enjoy. ❖ E. Tanaka



Feri
CV: Wakui, Yū
A girl who's a high dryad, a rare species of fairy that lives in forests and forest dungeons. She's very gentle and easygoing, but has a mysterious power that lets her control the forest plants. Her attack skill is Branch Whip, which summons whips made of plants to strike down the enemy. She's good friends with Lily, and both of them dream of visiting a human city one day.

Alisha
CV: Hinaki Yano
The Sword Saint, who once protected Aria's village in the past. This inspired Aria to follow her footsteps. Like Stella, she also knows that Tama is a behemoth, but agrees to keep it a secret. She is one of the Grand Mage's wives.

Shinju no Nectar

by Yoshino, Hiroyuki — art Satō, Kenetsu

In modern Japan, a down-on-his-luck, self-loathing young man named Kai Watari feels like a completely useless in society, drifting through dead-end part-time jobs. One day, he's suddenly summoned to a fantasy world by Sakura Shakuntira Adoniera, the surviving princess of the fallen Adal Duchy. She's desperately performing a ritual to summon a "rare human" (from another world) capable of receiving the "divine curse" to save her people from annihilation by the invading Dara Empire's forces.

THIS TEMPLE USED TO HAVE A REAL NAME, BUT IT'S BEEN LOST...
... I KNEW IT'D BE ABANDONED, BUT THIS PLACE IS DESTROYED.
8
YOU KNOW, SOME SAY...
...WE USED TO BE CHILDREN OF THE GODS.
...JUST LIKE ITS GODS.
FOG-GOT-TEN...
WELL, THIS MUST BE THE PLACE.
BUT THEN WE TURNED AWAY FROM THEM, OR THEY FROM US...
...AND WE MADE SCIENCE AND CIVILI-ZATION OUR NEW GODS.

SHE WANTED TO FIND A HUMAN TO HELP HER.
B-BUT...
...WHY NOT TAKE A CHANCE WITH THE ONE THE GODS SENT?
SINCE YOU'LL ONLY GIVE YOUR DHAANI TO A HUMAN...
SO, SAKURA.

SORRY...
YOU WERE SENT HERE AGAINST YOUR WISHES.
I PROMISE I'LL DO MY BEST TO PROTECT YOU.

AS I WAS DYING...
...I FELT THAT BLEEDING OUT IN THE ARMS OF SUCH A PRETTY GIRL HAD TO BE ONE OF THE NICER WAYS TO GO.
...AND MAYBE MY SHITTY LIFE WAS ACTUALLY GETTING A LITTLE BIT BETTER THERE AT THE END.
BUT THEN...

SAFE TO SAY, I HAD NEVER SEEN ANYTHING LIKE THAT IN REAL LIFE.
Then, go forth and show thy might...
...my cursed and monstrous servant!

...AND I EAGERLY, GREEDILY TOOK WHAT SHE GAVE.
HER SWEET NECTAR...
I'D NEVER FELT ANYTHING LIKE IT...
...AND I WANTED MORE...
...AND MORE...
...AND MORE...
...AND MORE!
...AND SOMEHOW THE MOST REGAL PERSON I HAD EVER SEEN.
AT THAT MOMENT, SHE WAS THE MOST BEAUTIFUL...
...BUT NOW THE PAIN OF DYING AND A SUDDEN, BURNING DESIRE DROWNED OUT ALL MY RATIONAL EXCUSES...
AT ANY OTHER TIME I KNOW I WOULD'VE BEEN TOO FLUSTERED, TOO EMBARRASSED TO DO ANYTHING BUT LET THE MOMENT PASS ME BY...
